How our OE Consultations Work:

1 INTAKE

Fill out a quick intake form detailing you and your family's specific health needs. Then, select a convenient time to speak with a licensed Open Enrollment Specialist.

2 1:1 CONSULT

During a 30-minute appointment, we'll walk you through all of your employer-sponsored benefits and discuss which plans will best meet your specific health needs.

3 RECAP

You'll receive a detailed summary of the call, along with answers to questions that were not resolved. Your plan recommendations will be clearly outlined by your HA.

Frequently Asked Questions

When should I schedule a consultation?

We recommend that you schedule a consultation as soon as your employer's open enrollment period begins.

You aren't required to change your plan during open enrollment, but it's important to review your coverage options annually to consider any changes associate to you and your families health, life changes, and potential pricing changes to your plan coverage.
